

Y7 Catch up premium 2016-2017

Schools receive an additional £500 for each pupil in year 7 who did not achieve at least level 4 in reading and/or maths at the end of KS2.

The school are expecting to receive £9000 to support the 18 students eligible for the Y7 catch up premium in KS3 for the academic year 2016 -2017.

The school have assessed the needs of the students and looked at the ways that they think are best to use the funding. 10 of the students have PMLD/CLDD including the support of 1:1 HCAs and 8 students have SLD, the students are split between 5 classes.

For the 2016-2017 academic year the premium money will be spent on employing a teacher to provide additional individual or small group sessions focused on English and Maths. The teacher will work with individuals or small groups, focusing on specific students each half term, and rotating round to work with all eligible students across the year. Each intervention will be a minimum 30 minute focused session on a weekly basis.

Part of the role of the intervention teacher will be to focus on identifying the barriers to learning for individual students, identifying motivators and what works well, and identifying actions which will be shared with class teams to be implemented across the year.

Intervention	Expected impact	Evidence
Small group/individual intervention Students to access a minimum of a half term intervention session from the intervention teacher.
